Description of services:
Axcess Technologies provides resale and recycling services in order to achieve either the extension of the usable life of an electronic product, or the recovery of value from recyclable commodities. Axcess Technologies customers consists of resellers and distributors of electronic equipment as well as end users. In order to capture the highest rate of return, Axcess has developed and maintained extensive and stable markets for non-ferrous and precious metals. In order to facilitate the sustainability of recycling programs, Axcess routinely offers the following services to our customers: inventory, consignment, transportation, segregation, demaunfacture, remanufacture and destruction services. Axcess Technologies began business in Austin, Texas in 1995 and opened a second facility in Farmers Branch, Texas to serve the North Texas region in 2004.
